GENERAL INFORMATION

Plan Report ID Number:

Developer Name: Eprosystem Inc.

Product Name(s): EproMedical

Version Number(s): 3.0.0

Certified Health IT Product List (CHPL) ID(s): 15.02.05.1449.EPRO.02.02.1.221108

Developer Real World Testing Plans and Results Report Page URL: http://epromedical.com/real-world-testing/

CHANGES TO ORIGINAL PLAN

Summary of Change: Only results reporting for g7 and g9 and Interactive testing was done on g7, and g9 to demonstrate these functions.

Reason: Due to non-utilization, interactive testing was done to demonstrate compliant results.

Impact: N/A

SUMMARY OF TESTING METHODS AND KEY FINDINGS

This document describes the Eprosystem EHR Real World Test (RWT) results obtained by executing the CY 2025 Real World Testing Plan for EproMedical v3.0.0.

Test methodology: Case management logs, system logs and email logs have been reviewed for each period to determine the frequency of use. Log files obtained during Real World Testing has been de-identified and used for analysis in several areas to validate the proper operation of the measures. This test methodology will primarily test the conformance of the implementation.

Application access was not used by our providers.

Care Setting(s)

Primary care settings with 1 to 2 providers.

Qualified Period: CY2025

Standards Updates

Standard (and version): USCDI v1
Updated certification criteria and associated product: g9

Health IT Module CHPL ID: 15.02.05.1449.EPRO.02.02.1.221108
Conformance measure: Conformance to Application Access for g9

Metrics and Outcomes

Measurement/Metric 5: Conformance to Application Access

Associated Certification Criteria: 315(g)(7), 315(g)(9)
Relied Upon Software: EMR Direct
Outcomes: 315(g)(7) The number of API queries for Patient Selection is 0
315(g)(9) The number of API queries for All Data Request is 0
Challenges Encountered: N/A
Interactive Testing: For 315(g)(7) and 315(g)(9) due to non-utilization of these functions, we have demonstrated these functions in their systems as an interactive test to demonstrate compliant results
For 315(g)(7) – The ability to fulfill an API request to a unique patient identifier to request patient data. We have successfully sent the request for 3 unique patient identifiers and have successfully received the requested patients' data. The data were verified for accuracy.
For 315(g)(9) – The ability to fulfill an API request for all categories of patient data. We have successfully sent request for all categories of data for 3 patient records and received all categories of patient data for the 3 records. The data were verified for accuracy.

Schedule of Key Milestones

Key Milestone	Care Setting	Date/Timeframe
Meet with previously identified providers and authorized representatives to ensure that Real World Testing protocols are effective.	Ambulatory	January 2024
Collection of information as laid out by the plan for the period.	Ambulatory	Quarterly, 2024
Follow-up with providers and authorized representatives on a regular basis to understand any issues arising with the data collection.	Ambulatory	Quarterly, 2024
End of Real-World Testing period/final collection of all data for analysis.	Ambulatory	January 1, 2025
Analysis and report creation.	Ambulatory	January 28, 2025
